Design and Construction Features

- 14 gauge type 304 stainless steel construction.
- Choice of welded or adjustable H-frame or 4-sided frame.
- Rolled edge at front and rear of seat, with ends turned down at 90°.
- Hat channel on underside of seat for added strength.
- Stainless steel legs and footplates.
- 1½" (41mm)-diameter legs.
- Welded frames feature 1½" (41mm)-diameter crossbracing.
- Adjustable frames feature 1¼" (32mm)-diameter crossbracing and heavy duty aluminum fittings.
- 17" (432mm) overall height on all units.

New EL Series Heavy Duty Solid Gowning Benches

with Four-Sided Base or H-Frame Base

with welded H-frame

with adjustable 4-sided frame

Seats are 14 gauge type 304 series stainless steel, with rolled edge along the front and rear of the seat for comfort while in use. For further strength, hat channels are welded to the underside of the seat.

The heavy duty base of these benches are available with choice of either a 4-sided frame or an H-frame, both of which come with choice of either welded in place or adjustable. Legs on all benches are 1½" diameter!

Should you choose a gowning bench with a 4-sided frame—welded or adjustable—you will have the option of adding shelf sections, which turn the 4-sided frame into an undershelf. Each shelf section has an upturn on each end, which function as dividers when placed side-by-side.

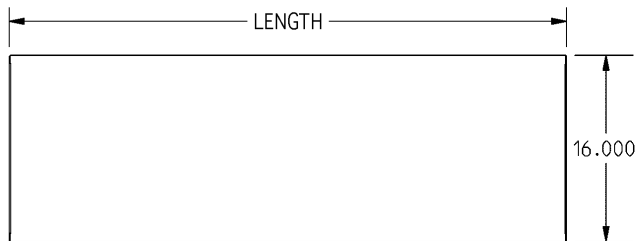

For custom configuration or fabrication needs, contact our **SpecFAB® Division**.
