Seismic Footplate Kits

Converts standard shelving into seismic

Design and Construction Features

- By fitting onto Eagle's standard shelf unit, these kits convert shelf unit into a seismic shelf unit.
- Kits feature bolt plates and post straps that fit onto Eagle's 1"-diameter posts.
- Each bolt plate consists of 1/8"-thick boot welded to a 1/4"-thick plate. Predrilled for attachment to the unit post and to the floor. Zinc plated. Total height of 4½".
- Post strap consists of two components—each fitting onto a post at the top—joined by hardware. Chrome-plated. Split sleeves included.
- Weight capacity of 20 PSF per shelf.
- Approved by the California Office of Statewide Health Planning and Development*.
